Summary of
NWT Community Statistics

- 2001 -

Bureau of Statistics
Government of the Northwest Territories
February, 2002

Summary of NWT Community Statistics

Although statistical information for the Northwest Territories serves an important role in describing trends in demographic, social and economic conditions, these territorial indicators do not always reflect some of the differences that exist among communities in the Northwest Territories.

This document is intended to provide a summary of current selected demographic, social and economic statistics for areas of the Northwest Territories and for communities. Although a wide variety of subject areas are covered, the document is not intended to contain all community information that is available. Sections included in the profile are:

- population estimates
- population projections
- births
- teen births
- deaths
- injury-related deaths
- suicides
- size of household
- household tenure
- family structure
- core housing need
- crime & crime rates
- income support
- traditional activities
- Aboriginal languages
- education levels
- historical labour force activity
- selected 1999 employment rates
- summary of 1999 labour force activity
- potential labour supply
- employment profile
- total personal income
- employment income
- income distribution
- household income
- prices

The document is organized into four sections Following this section, the second section contains information for three aggregations of communities: (i) regional data; (ii) communities summarized into categories associated with the socio-economic agreements signed between the GNWT and the diamond industry, and (iii) community type. The third section provides the same socio-economic information for each NWT community. In this section communities are organized alphabetically by region The final section of the report describes the communities that are included in each of the aggregations presented with the regional data and provides sources and definitions for the variables included in these summaries.

If statistical information for NWT communities is required that is not contained in this document, it is recommended that users visit the NWT Bureau of Statistics web site at http://www.stats.gov.nt.ca or call (867) 873-7147.

Definitions, Notes & Sources

Regional Aggregations

The following summarizes the communities included in each of the regional aggregations provided in this report.

Regions:

The regions presented in this report are not based on the current administrative regions of Fort Smith Region and Inuvik Region, but rather group communities based on areas of the Northwest Territories.

Beaufort-Delta

- Aklavik
- Fort McPherson
- Holman
- Inuvik
- Paulatuk
- Sachs Harbour
- Tsiigehtchic
- Tuktoyaktuk

Sahtu

- Colville Lake
- Deline
- Fort Good Hope
- Norman Wells
- Tulita

Deh Cho

- Fort Liard
- Fort Providence
- Fort Simpson
- Hay River Reserve
- Jean Marie River
- Nahanni Butte
- Trout Lake
- Wrigley

South Slave

- Enterprise
- Fort Resolution
- Fort Smith
- Hay River
- Kakisa
- Lutsel'ke

Dogrib

- Detah
- Rae Lakes
- Rae-Edzo
- Wekweti
- Wha Ti

Yellowknife

- Yellowknife

Socio-Economic Agreement Communities:

This aggregation reflects the impacted communities identified in the socio-economic agreements signed between the Government of the Northwest Territories and the diamond industry.

Yellowknife

- Yellowknife

Other Communities

- Rest of the communities

Other Impacted Communities

- Detah
- Rae Lakes
- Rae-Edzo
- Wekweti
- Wha Ti
- Lutsel'ke

Community Type

Organizing community information by community type is sometimes used to isolate smaller NWT communities from the regional centers and Yellowknife where socio-economic conditions can sometimes be different.

Yellowknife

- Yellowknife

Rest of Communities

- Rest of the communities

Hay River, Fort Smith, Inuvik

- Hay River
- Fort Smith
- Inuvik

Variables and Sources

The following briefly describes the data and the sources provided n the community summaries.

Population Statistics

All community and regional population estimates and all population projections are based on information developed by the NWT Bureau of Statistics.

Population Estimates

- population estimates are developed for NWT communities and regions based on territorial population and components of growth information estimated by Statistics Canada at the territorial level.

Population Projections

- population projections incorporate assumptions regarding fertility, mortality & migration patterns. These assumptions are reflective of historical patterns, as well as recent trends observed for the Northwest Territories.

Vital Statistics

Vital statistics information is based on data provided by Health Statistics Division, Statistics Canada.

Teen Births

- refers to births to women under the age of 19.

Injury Deaths

- are deaths due to accidents, homicide and suicides.

Households & Families

Family Structure

- refers to the classification of census families of now-married couples (with or without children), families of common-law couples (with or without children), and lone parent families. Data is from the 1996 Census.

Tenure

- refers to whether some member of the household owns or rents the dwelling in which the household resides. Data is from the 2000 NWT Housing Needs Survey completed by the NWT Bureau of Statistics.

Core Need

- is a measure used to identify households that having housing problems and do not have the financial resources to correct the problem. Specifically, core need exists if a household has any one housing problem (suitability, adequacy, or affordability) or a combination of housing problems, *and* a total household income below the Community Core Need Income Threshold.

  Core Need Income Threshold is an income limit for each community that represents the amount of income a household must have to be able to afford the cost of owning and operating a home or renting in the private market without government assistance. Housing need is based on the 2000 NWT Housing Needs Survey completed by the NWT Bureau of Statistics.

Crime Statistics

Crime data is obtained from the Canadian Center for Justice Statistics at Statistics Canada. Some caution should be used with this data as community information can be influenced by the establishment of a detachment in a nearby community (for example Rae-Edzo and Wha Ti).

Income Support

Data on the income support program are provided by the Department of Education Culture & Employment, Government of the Northwest Territories.

Beneficiaries

- are the recipients of social assistance and their dependants for a given month.

Cases

- is the number of people requesting and receiving social assistance for a given month.

Payments

- payments are recorded for the month for which assistance was received.

Traditional Activity

Information on traditional activities is based on the 1999 Labour Force Survey conducted by the NWT Bureau of Statistics. In the case of hunting & fishing this excludes commercial fishing.

Households Consuming Country Food (half or more)

- this data reflects households that indicated they obtain half or more of their meat and fish through hunting and fishing.

Aboriginal Language

Aboriginal languages include Inuktitut, Inuvialuktun, Innuinaqtun, Dogrib, North Slavey, South Slavey, Gwich'in, Cree and Chipewyan. Data is from Labour Force Surveys conducted by the NWT Bureau of Statistics.

Labour Force Statistics

Labour force data is either from Labour Force Surveys completed by the NWT Bureau of Statistics or from the national Census. Some caution should be used when comparing data from the labour force surveys and the Census, as these two are completed at different times of the year. Some seasonal influences are apparent in the data.

Labour Force

- refers to persons who were either employed or unemployed during the week prior to the survey.

Not in the Labour Force

- refers to persons who do not participate in the labour force, they are neither employed or unemployed.

Employed

- refers to persons who during the week prior to the survey: (i) did any work at all, excluding housework, maintenance around the home and volunteer work; or (ii) were absent from their job or business because of vacation, illness, on strike or locked out, etc.

Unemployed

- refers to persons who during the week prior to the survey: (i) were without work, had actively looked for work in the previous four weeks and were available for work; or (ii) had been on temporary lay-off and expected to return to their job; or (iii) had definite arrangements to start a new job within the next four weeks.

Participation Rate

- the percentage of persons 15 years of age and over who are in the labour force.

Unemployment Rate

- the percentage of the labour force who were unemployed during the week prior to the survey.

Employment Rate

- the percentage of persons 15 years of age and over who were employed during the week prior to the survey.

Not in the Labour Force But Want A Job

- refers to those persons who are not in the labour force *and* not actively looking for work, but would like to be employed.

Personal Income Statistics

Total and average income information is based on data from the Small Area and Administrative Data Division (SAADD) of Statistics Canada. Income distribution information is from the locality Code Statistics produced by the Canadian Customs & Revenue Agency (CCRA).

Total Income

- refers to total money income received from all sources.

Employment Income

- refers to total income received by persons 15 years of age and over for any employment.

Household Income Statistics

Refers to the total income of a family; it is the sum of the total incomes of all members of that household. Data is from the national Census.

Living Cost Differentials

Living cost differentials reflect the price difference between the base city and the community for a selected range of consumer goods. The last data available for NWT communities is from 1997. Data provided by Prices Division, Statistics Canada.

Food Price Indexes

Food price indexes compare the price of some 160 food items in each community to Yellowknife. The food price indexes were last completed in 2000 and are done by the NWT Bureau of Statistics.
